

English

The children will be reading a range of texts, of varying genres over the course of the year.

They will be extending their use of language through sentence stems and building up their vocabulary and ideas for writing.

We will be working on basic writing skills including: finger spaces, sentence structure and use of punctuation.

Please continue to support your child with reading at home and signing their diary each time you hear them read.

Maths

The children will be continuing to expand their mathematical knowledge and fluency this year. We want the children to have a good understanding of number and place value. We will be working on number bonds and time tables and using these to help solve more complex mathematical problems.

We will also be learning and using the four operations. Multiplication, division, addition and subtraction and

Science

We will be developing our skills of working scientifically and encourage the children to question the world. We will be looking at experiments and displaying our findings and understanding that questions can be answered in different ways.

We will be looking at animals and their habitats, every day materials and their properties and will also be looking at different kinds of plants. Naming them and finding out what they need to sur-

Key stage 1 Curriculum

R.E.

This year in RE will be looking at bible stories. We will also be learning about the Jewish faith and their traditions and beliefs.

PE

This year we have some coaches in to do fundamental skills and Meta Fit. The children will also be developing a range of movement skills and how this can help with other sports. We will study dance, basic throwing and catching and invasion games.

The children will also have the opportunity to have swimming lessons later in the year.

Art

This year we will use drawing, painting and sculpture to develop and share ideas, experiences and imagination.

We will develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space

We will also learn about the work of a

Topic

Topic this year will be based on our creative curriculum.

Our first question is 'How can a school of great diversity impact positively on the community?'

We will explore this and other questions in our lessons throughout the year. Furthermore, we will be sharing what we find out with you in assemblies and other celebrations.
