

Number Facts Targets to be practised throughout the year:

\* Add and subtract numbers mentally with increasingly large numbers, \* multiply and divide numbers mentally drawing upon known facts, \* Ready to Progress Criteria 5NF-1: Secure fluency in multiplication table facts, and corresponding division facts, through continued practice, \* Ready to Progress Criteria 5NF-2: Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 1 tenth or 1 hundredth)

Autumn 1								
Week 1	Week 2	Week 3	Week 4	v	Veek 5	Week 6		Week 7
Place Value: large whole numbers	Place Value with Multip Division by 10, 100	blication and 0, 1000	Measures: Conversion (metric conversions to be revisited regularly in key skills sessions)	M (facto	Iultiplication a	nd Division (tiples, squares)		Area
<ul> <li>identify the place         value in large         whole numbers</li> <li>read, write, order         and compare         numbers to at         least 1 000 000         and determine         the value of each         digit</li> <li>round any         number up to 1         000 000 to the         nearest 10, 100,         10000 and         100000         <ul> <li>read Roman             numerals to 1000             (M) and             recognise years             written in Roman</li> </ul> </li> </ul>	count forwards or back steps of powers of 10 f number up to 1 000 00 Ready to Progress crite Know that 10 tenths ar to 1 one, and that 1 is 1 size of 0.1. Know that 1 hundredths are equiva and that 1 is 100 times 0.01. Know that 10 hur equivalent to 1 tenth, a 10 times the size of 0.0 multiply and divide wh and those involving dev 100 and 1000 Links to Ready to Progr 5MD-1: Multiply and d by 10 and 100; underst equivalent to making a 100 times the size, or 1 hundredth times the si	wards in for any given 0 eria 5NPV-1: re equivalent 10 times the 100 lent to 1 one, the size of ndredths are and that 0.1 is 10 ole numbers cimals by 10, ress criteria ivide numbers cand this as number 10 or 1 tenth or 1 ze	<ul> <li>multiply and divide whole numbers and those involving decimals by 10, 100 and 1000</li> <li>convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and metre; centimetre; gram and kilogram; litre and millimetre; gram and kilogram; litre and millilitre)</li> <li>Links to Ready to Progress criteria 5NPV- 5: Convert between units of measure, including using common decimals and fractions</li> </ul>	<ul> <li>ide inc of fac</li> <li>kne pri ane</li> <li>est to nu</li> <li>fac ane</li> </ul>	entify multiple: cluding finding a number, and ctors of two nu ow and use the me numbers, d composite (r mbers tablish whethe 100 is prime a mbers up to 1 cognise and us mbers and cult d the notation d cubed lks to Ready to teria 5MD-2: F ultiples of posi mbers, includi ctors and comr d express a giv	s and factors, all factor pairs d common imbers e vocabulary of prime factors nonprime) er a number up nd recall prime 9 e square be numbers, for squared o Progress find factors and tive whole ng common mon multiples, yen number as a	•	calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres and square metres estimate the area of irregular shapes Links to Ready to Progress

Autumn 2							
Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	
<ul> <li>Place Value and Decimals</li> <li>Links to Ready to</li> </ul>	Addition and Subtraction (formal methods – including application of perimeter) • measure and calculate	Multiplication and Division (formal methods)       Assessment       Problem solving with Time         • multiply numbers up to 4 digits by a       • solve problems			Shape • identify 3-D		
Progress criteria 5NPV-2: Recognise the place value of each digit in numbers with up to 2 decimal places, and compose and decompose numbers with up to 2 decimal places using standard and nonstandard partitioning	<ul> <li>the perimeter of composite rectilinear shapes in centimetres and metres</li> <li>practise using the formal written methods of columnar addition and subtraction with increasingly large numbers to aid fluency</li> <li>add and subtract whole numbers with more than 4 digits, including using formal written methods</li> <li>use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy</li> </ul>	<ul> <li>one- or two-digities formal written reliand written method and interpret reliand reliand to reliand written method and interpret reliand reliand to reliand to</li></ul>	it number using a method, including ion for two-digit o Progress criteria y any whole number its by any one-digit formal written up to 4 digits by a er using the formal of short division mainders or the context o Progress criteria number with up to e-digit number using method, and nders appropriately		<ul> <li>involving converting between units of time</li> <li>use all four operations in problems involving time including conversions (for example, days to weeks, expressing the answer as weeks and days)</li> <li>complete, read and interpret information in tables, including timetables</li> </ul>	shapes, including cubes and other cuboids, from 2-D representations
