Tuesday 8<sup>th</sup> February 2022 was **Safer Internet Day** and it was celebrated with the theme 'All fun and games'. Children learnt all about creating a safer internet, whether that is whilst gaming and creating content, or interacting with their friends and peers. As a result of this, we would like to share some information with you about PEGI Game Ratings. All games come with an age rating which confirms that the game is appropriate for players of a certain age and PEGI considers the age suitability of a game, not the level of difficulty. While most games are suitable for players of all ages, others are only suitable for older children and young teenagers. Furthermore, a specific portion of games on the market contain content that is only appropriate for an adult audience. Look at the back of your child's games for these ratings.
